500 PERSONS PLEASSED WITH SCHOOL SHOW

Approximately 500 attended the production of "Angel Street" presented Thursday night by the Senior class of Gettysburg high school in the high school auditorium.

With all of the actors turning in excellent performances in Thursday's showing, it appeared certain that the second presentation of the Victorian melodrama scheduled for tonight will again please the large audience that is expected.

Ruth Jean Diehl as "Bella Manningham" and William McKenney as "Jack Manningham" had probably the most difficult roles. The play involved the attempts of Manningham to convince his wife she is insane. Tom Hemmings played the part of "Rough," the police inspector who saved Mrs. Manningham's sanity and discovered how Manningham had previously committed a murder.

Pat Sponsler had the part of "Nancy"; Mary Kay Baughman, "Elizabeth"; and Donald Weaver and Jacob Yingling, "Policemen."

Attractive Scenery

Much credit for sustaining the mood of the production went to the group that prepared the scenery which recreated a mid-Victorian living room scene.

Antiques were lent by Mrs. Dora Mae Kane, McKnightstown; Selmar H. Hess, Chambersburg street, and Mrs. Mary Wilson, Gettysburg R. 4, to give an authentic air to the scene.

Miss Ruth K. Scott was the director for the show and the stage scenery was prepared by a group including Robert Krick, advisor, Mary Jo Tawney, Ann Shryock, and Geoffrey Grieb. Stage properties were handled by a committee for which Mrs. Eva Bowers was advisor and which included Donald Weaver, chairman; Pat Keefe, Charles Bender, Ann Wilson, Galen Keeney, Jean Harner, Pat Rebert, Eileen Kane, Willie Catherine Crabb, Loraine Kane.

EXTENSION CLUB MEMBERS HOLD THIRD BANQUET

Members of the Adams County Senior Extension club and their parents were urged to take a larger part in the life of their community in an address given by Miss Mable Satterthwaite, State College, assistant supervisor of extension home economics, Thursday evening at the third annual banquet of the extension group at Two Taverns.

"The world has become so integrated that everything that happens anywhere affects us, and anything we may do or say has its effect in the world," she said.

"That is why members of Senior Extension should discuss and study world affairs. For if people like you, who are the cream of the crop, do not attempt to understand the problems that confront the world, how can you expect anyone else to do so. Washington does not make all of the decisions, the decisions are made by the individual voters."

92 Attend

"Our difficulty today is that we all are long on enthusiasm, but short on information. And yet these problems come home to you. What do you know of the European Recovery Plan? Yet it will certainly have an effect on farm prices, and thus affect you. What do you know about Universal Military Training? It too, will affect you. What do you know of the discussions on taxes? Yet the decisions on taxes will affect your pocketbook directly. That is the challenge that is given to us all. To more intelligently study the world about us, and to be willing to assume leadership, to direct change as well as follow it."

Ninety-two members of the club and parents attended the dinner session. Myles Starner, president of the club, acted as toastmaster and Charles Cashman, New Oxford, club treasurer, was song leader.

Horace Waybright, Gettysburg R. 1, the first Adams countyman to receive the American Farmer award of the FFA, spoke on his trip to the national FFA convention. Miss Mary Jane Mickey, home economics extension representative, M. T. Hartman, county farm agent, Ira N. Dunmire, assistant county farm agent, and H. E. Brown, Fairfield, president of the county agricultural extension association were other speakers.

Others introduced included John Schwartz, Littlestown, vice president of the club; Nadine Baker, East Berlin, secretary of the club, who acted as pianist; John Horner, Hanover R. D., news editor for the club publication and the members of the banquet committee, John Schwartz, Geraldine Eyer, Charles Klinger and Mrs. John Schwartz. The roast chicken dinner was served by the Ladies' Aid society of the church.

Driver Held Until He Gets Fines, Bail

A Silver Springs, Md., motorist, Robert Bruce MacLean, today was being held in jail here pending payment of fines imposed by Justice of the Peace John H. Basehore on three charges filed by borough police.

MacLean, police said, ran through a stop sign at 1:45 a. m. today, and was stopped by a borough patrolman. He created a disturbance with the officer, and was charged, in addition to the stop sign violation with driving an automobile while intoxicated and with disorderly conduct.

Arraigned before Squire Basehore, MacLean was held for court on the drunken driving charge and sent to jail until he could furnish \$500 bail. A fine of \$5 and costs was imposed on the stop sign charge and MacLean was assessed \$10 and costs on the disorderly conduct charge.

ASKS REPORTS OF GAME LAW VIOLATIONS

The aid of sportsmen in reporting game law violations is urgently needed, William W. Britton, county fish warden, pointed out in an address Thursday evening at a meeting of the Adams County Fish and Game Association at Bonneauville.

Such reports are one of the most necessary parts of conservation, he added, asserting that "without such reports we cannot continue to have game in any quantity. The warden is only one man, he can cover only a small portion of the territory at a time, he can be in only one place. It is the job of all sportsmen to report violations they see if they want to keep game. That is the purpose for which the laws are made, to conserve the game so that all will have an opportunity to partake in hunting and fishing."

Britton also reported that streams may be closed after restocking by the posting of signs by sportsmen's associations.

Reports Game Stocking

Leo A. Bushman, county game warden, reported that 55 cock pheasants, 27 wild turkeys and 155 hen pheasants had been released in the county by him during the past few weeks.

Approximately 400 pheasants are being raised near Cashtown by the association for restocking purposes, according to reports presented Thursday night. Hopes of some members that deer might be restocked were not realized Thursday when reports presented discouraged such restocking. Deer raised for restocking would probably become tame and when left to roam would probably go to the nearest farm house, it was pointed out.

Seth Gordon, secretary of the state game commission, will be sought as speaker for the meeting of the Adams County Fish and Game association to be held April 22 at the Cashtown fire house, it was decided. If he can be secured all sportsmen in the county will be invited to attend the session. Philip B. Sharpe showed pictures of various sections of the United States.

One hundred and twenty-five members attended Thursday's meeting. Paid-up memberships in the association were announced as 265.

Any "Offer" Could Move That Stock

A linoleum dealer in a nearby town put several rolls of odd-length linoleum in front of his store, and above them he placed a sign:

"For Sale—Make Me An Offer."

A woman stopped in front of the store.

"Are those for sale?"

"Yes," replied the linoleum merchant.

"How much?" said the woman.

"Make me an offer," suggested the merchant.

"Well, I'd like that piece, but I wouldn't give you anything for it. I can't afford it."

"It's yours," said the dealer. "The sign says 'Make Me An Offer' and you did. What's your address? We deliver."

She got the linoleum.

Two Prisoners Leave Cells, Walk Down Prison Hall, Sever Bars On Second Floor Window And Slide Down Rope Made Out Of Their Bed Clothes

Ray H. Simmons, 23, sentenced to death in the electric chair by Judge W. C. Sheely on March 8, for the hammer-slaying of Herbert L. Humpert, 70-year-old Tyrone township farmer, escaped from the Dauphin county jail, Harrisburg, today. With him was Edgar Via, 28, awaiting trial in Harrisburg on robbery charges. It was the second break from the Harrisburg jail within three months.

A widespread search immediately got under way for the two escaped prisoners. Harrisburg and state police are on the hunt.

Both Are Armed

District Attorney Carl B. Shelley, of Dauphin county, said that both escaped prisoners were armed and that Simmons "will shoot to kill if captured."

Simmons "is under sentence of death and has nothing to lose in resisting arrest," Shelley added. "Via, we don't know about."

Shelley said that either or both of the escaped prisoners may have been injured in falls when their improvised rope broke about five feet from the jail window to which it was attached.

Warden Edward R. Etter said the two prisoners were in their cells in the "maximum security" block of the jail as late as 4 a. m. A guard checked at that time.

The beds in the cells had been made up to look as if the prisoners were sleeping in them.

All available troopers from the Gettysburg sub-station of state police started patrolling all roads leading into Gettysburg as soon as word of Simmons' escape was flashed to their headquarters. They are covering all highways in the county. A mid-morning report received by the local state police was to the effect that Simmons had been seen early today near Mechanicsburg, "heading south."

Simmons Was Convicted Of Beating Herbert L. Humpert To Death With Claw Hammer

At 3:30 o'clock this afternoon local state police reported that they were without clues as to the whereabouts of Simmons.

RAY H. SIMMONS

Ray H. Simmons, Mechanicsburg R. 1, was convicted in the Adams county court here on May 6, 1947 of the murder of Herbert L. Humpert, 70-year-old Tyrone township farmer, at the latter's home on the Peach Glen road the night of March 24. He was sentenced by Judge W. C. Sheely on March 8, 1948, to die in the electric chair at the Western penitentiary. At the time he was sentenced, an appeal by his attorney, Richard S. Brown, for a new trial was denied. Postponement of sentence was denied at the same time, and Simmons was returned to the Dauphin county jail. The date of his execution was left to Governor Duff to fix.

Called Brutal Murder

The murder of Humpert was termed one of the most brutal in the history of the commonwealth. Humpert was beaten to death with a claw hammer, welded, the prosecution claimed, by Simmons, as Humpert walked to his barn to get a car jack. Simmons was accompanied on the murder trip by Robert L. Staley, 24, of Mechanicsburg, who was convicted of murder at a trial which followed the Simmons trial. He escaped the chair with a life sentence.

The prosecution claimed that Simmons and Staley "cased" the Humpert farm prior to the killing, and went there the night of March 24 with the intent of robbing the elderly farmer, reputed to be worth in the neighborhood of \$30,000. They faked the story of a flat tire on their car when they aroused Humpert, and asked for a jack.

Body Found March 26

Humpert's body was found March 26, two days after the killing in a feed alley in his barn. The attack on him was made on a pathway leading from the back door of the farm house to the barn, the state claimed. Humpert died from 17 wounds on the head and face, according to a doctor's testimony.

Humpert's body was discovered by Spencer McKinney, a neighbor, who went to the farm after not seeing Humpert for two days. Humpert had lived alone for eight years, after the death of a sister.

State police ran down clues which resulted in the arrest of Simmons and Staley on March 31, 1947. They were questioned at the Dauphin county jail, and on April 2, 1947, signed confessions in the office of District Attorney J. Francis Yake, Jr. On the same day they were charged with the murder before Justice of the Peace John H. Basehore, and on April 8 both were held for court. A grand jury indicted them on April 24.

Motions of defense attorneys for a continuance of the Simmons trial to the August term, and for a change of venue, were denied, and Simmons went to trial on April 30. He was found guilty of the murder charge on May 6. The verdict of

the jury was guilty of first degree murder, with the death penalty.

The Staley trial followed immediately, and he was found guilty of murder, with a recommendation that he be given life imprisonment on May 10. The present district attorney, Daniel E. Teeter, assisted on both trials as special assistant district attorney to J. Francis Yake, Jr. Attorney Eugene V. Bulliet represented Staley.

Simmons got only \$5 out of the robbery and murder, according to his confession. He said that he and Staley found \$129 in the Humpert home, and that they split it. Staley taking \$64. Staley later admitted, however, that instead of getting \$64, he got nearly \$1,600. Simmons, it was claimed, was in ignorance of this larger amount which Staley said he retained. He later gave approximately \$1,300 of it to a Mechanicsburg girl, who turned it over to Mechanicsburg police when she read of Staley's arrest.

"Pawed" A Suit

According to the confessions, Simmons "hocked" a suit for \$5 to finance the trip in his automobile to the Humpert farm on the afternoon of March 24 and the robbery and killing that night. Both Simmons and Staley were on parole for previous offenses, and at the time of the arrests, District Attorney Yake said it was believed by local police that Simmons had been connected with the Black Diamond gang in Harrisburg.

Simmons repudiated much of his original confession at his trial, claiming that he was "stupid drunk." He and Staley spent part of the afternoon in Gettysburg before the robbery-slaying, and returned here after the murder, it was shown.

"I'm flabbergasted" was the only comment Attorney Richard A. Brown, of Swope, Brown and Swope, would make when advised of Simmons' escape. Brown assisted Attorney Caldwell, of Harrisburg, in the defense of Simmons.

Post Police Guard

Police are on the lookout for a 1946 yellow Chrysler "Windsor" sedan, bearing 1948 dealer license plates B-250-C, reported stolen from a used car lot in Harrisburg during the night.

Immediately after being notified of Simmons' escape state police attempted to get in touch with Judge W. C. Sheely, who sentenced Simmons, by telephone.

When they were unable to reach the judge by phone, officers were sent to his residence. There they learned that the jurist is holding court in McConnellsburg this week.

A police guard was posted outside Judge Sheely's office in the court house this morning.

Authorities revealed today that when Simmons was brought here for trial in April, 1947, a spike was discovered by state police, hidden in the binding of a Bible he brought with him.

Sgt. Alfred Verbecken, of the state police, formerly stationed here, said the two men got out of their cells during the night. They walked down a hall of the prison, he said, saved the bars of a second story window, and slid to the ground with a rope made of bed clothing.

Police Protect Wife

Simmons' wife, employee of a Harrisburg insurance agency, was given police protection after she called the jail and said her husband had threatened her.

George Dickey, a janitor, found a 30-foot section of rope made from bedding in an offset of the old county court house adjoining the prison. The rope had been fashioned from strips of mattress covering. A small section of the rope still hung from the prison window at the time.

"This jail break," said President Judge J. Paul Rupp, of the Dauphin county court, in a statement "points up for everyone the question of whether our present jail facilities are adequate."

"A serious consideration of this question might lead to the conclusion that a new jail is urgently necessary."

Sentenced March 8

Simmons was sentenced to death only two weeks ago. He was convicted May 6, 1947, in Gettysburg of first degree murder in the robbery-slaying of Herbert L. Humpert, 70, Tyrone township farmer, on March 24, 1947.

Judge W. C. Sheely imposed the death sentence on March 8. The date for his execution was not fixed pending a possible appeal of his conviction to the State Supreme court.

Simmons and Robert L. Staley, 23, were charged with beating the aged farmer to death with a claw hammer and robbing him of some \$1,600. Staley was convicted of first degree murder with a recommendation of life imprisonment and was sentenced to life imprisonment.

Simmons and other Adams county prisoners were sent to the Dauphin county jail while a new jail is being built here. The old jail has been condemned as a hazard.

One Escapes Dec. 22

The break from the Dauphin county jail was the second within three months. Dorsey (Blackie) Calp, indicted with Via on robbery charges, made his getaway from the jail last December 22. He was later

Marshall Says Russia Using Nazi Methods On Neighbors

Berkeley, Calif., March 19 (AP)—Secretary of State George Marshall today accused Russia of using high-handed Nazi methods in the Communist drive to engulf free European nations.

Before a University of California audience, Marshall stated the Soviet threat to America in these words:

"Never before in history has the world situation been more threatening to our ideals and interests than at the present time."

"A depressing aspect of the situation is the duplication in Europe of the high-standard and calculated procedure of the Nazi regime."

It was Marshall's first public speech since President Truman appealed Wednesday for Congress to enact Universal Military Training and a temporary draft, and to speed action on the European recovery program.

Cites Six Points
But Marshall went beyond his chief in further detailing what he called today the "general strategy" of meeting the Russian challenge.

The secretary of state made these main points:

1. Personally warned Italy and all other free European nations that any country which puts the Communist party in power automatically cuts itself off from American aid.

Marshall said the Communists have so strongly opposed the recovery program that their victory would be evidence of a nation's desire "to dissociate itself from the program."

2. The present conflict is a "world-wide struggle between freedom and tyranny." Marshall said the Russians should be stopped short in the positions they now hold—"It should now be perfectly clear that rule based on threats and force instead of on reason and justice must not be allowed to spread further unchecked."

Wants Settlement
3. He defined United States policy as: "To stand firm on basic principles but at the same time to keep the door wide open for any general conciliatory moves." The U. S. is "sincerely anxious" for a settlement. But until a settlement is possible "it must be our policy to discourage and to oppose further encroachment on the rights and lives of free peoples."

4. The crisis in which the United States now finds itself is world-wide. It presents grave threats to American interests not only in Europe but also in the Middle East and Far East. Marshall argued against trying "to disperse our efforts" to meet all threats equally.

5. The great need now is for prompt enactment of the European Recovery Program in Congress. He said this should so strengthen free nations as to give them a better chance to defend themselves "against transition into police states dominated by the central committee of the Communist party in Europe."

The National Physicians Committee for the Extension of Medical Care, which has carefully surveyed this problem over a period of many years, has pointed to six basic and important flaws in compulsory government health insurance.

As reported by the Christian Science Monitor, these are:

1. The quality of medical care would be lowered.
2. It would not satisfy the demand for better care at lower cost.

3. It would create a costly political bureaucracy to administer the program.
4. It would reduce the availability of physicians in many areas, unless doctors were wholly regimented and forced to live and work where the government ordered them.

5. It would postpone indefinitely sound solutions of the medical care problem on a voluntary basis.
6. It would subject the relationship of physician and patient to the blundering, ineptitude and waste which have always characterized the extension of government into the personal affairs of the citizen.

These views are shared by the great majority of medical men, and by most of the other experts who are concerned with medical care. The experience in other countries where government medicine is or has been in effect adds strong additional evidence.

As the Committee said, compulsory health insurance is "long on records and short on recovery."

This is a good time to reprint the last paragraph of General Eisenhower's final report as Chief of Staff of the United States Army to the Secretary of the Army. The General said:

"The American people possess the capacity, the initiative, the resolution to maintain this nation a leader among the nations, strong in its moral position, in its physical defenses, in its economic wealth and its productivity for human betterment. Then the counsel and example of the United States will be the world's most potent influence toward increase of freedom and peace among men—the final security goal of mankind."

Pilot training and non-rated officer candidate opportunities are now being offered to civilians by the USAF, the colonel said.

The traveling team will be able to give all qualifying tests required for the courses except the final physical examination and as a result those visiting the college March 22 and 23 will be able to determine immediately whether they can qualify.

The officers will be available from 9 a. m. to 4 p. m.

picked up in Baltimore and was sentenced there on a Federal charge, Verbecken said.

The state police official said that Via and Calp, before their arrest in Harrisburg, escaped from a state prison camp at Culpeper, Va., last September.

Both Simmons and Staley, who lived in Mechanicsburg, were arrested a few days after Humpert was killed.

At Simmons' trial, the prosecution introduced a statement which quoted him as saying he struck Humpert "A number of times" in his barnyard and that he and Staley then robbed the aged man's home.

Accuse Officials

Simmons testified at his trial that he had been drinking heavily on the night of the slaying and "was too drunk to know what happened." He said state police and the district attorney's office "put words in my mouth" in drafting the statement.

At Staley's trial a statement from him was introduced in which he was quoted as saying he sought to dissuade Simmons from robbing the Humpert home and that Simmons hit the aged farmer without prior planning.

Sports Roundup

By HUGH FULLERTON, Jr.
New York, March 19 (AP)—When William Howard Taft was President of Yale, the authorities constructed double seats at Woolsey Hall and the baseball field to accommodate the press's ample frame. . . . They haven't been used since then, to the great sorrow of Connecticut Yankees, who hate to see anything go to waste. . . . The Eli's new football coach, Herman Hickman, probably will find them just the thing. . . . Reports from the southwest say the reason big Jake Kramer is pulling so far ahead of little Bobby Riggs in their pro tennis tour is that Bobby is plumb tired out. Riggs just isn't big and strong enough to take those nightly matches with long drives in between. . . . Byron Bolli, regarded as the best prep football center ever developed in Chicago, is headed for Notre Dame. Where else?

MANY A SLIP
Bobby Hogue, the Braves' rotund rookie pitcher, claims to be the only pitcher who ever played a bunt into a three base hit. . . . Bobby was playing on a rain-wet clay field in Asheville, N. C., a few years ago when an opponent bunted. . . . Hogue raced over and grabbed the ball, then skidded on the clay and slid clear under the bench. . . . Before he could crawl out and throw, the runner was on third, but since Hogue had held onto the ball, it couldn't be scored as an error.

ONE-MINUTE SPORT PAGE
Although the Cardinals' Eddie Dyer admits he's a bit concerned about the advancing age of his stars, he points out that what hurt the Cards last year was injuries to comparatively young guys like Stan Musial and Howie Pollet. . . . But Eddie gives their ages as 25 and 24, which is knocking a couple of years off what's listed in the Cards' roster. . . . Kentucky's Ralph Beard will be presented a trophy tonight by True magazine as the outstanding basketball player of the year—unless a lot of coaches changed their votes after watching Ed Macauley perform for St. Louis in the invitation tourney final. . . . Carl Snavey tells North Carolina alumni that he refused the Los Angeles Dons' pro coaching offer because the club has no alumni to tell him how to run his team and "what's wrong in general." . . . He'd be surprised if he only knew about that.

Spring Grid Drills Will Start April 1

Coach Henry T. Bream has announced that spring football practice at Gettysburg college will open April 1.
While the Bullets will stick primarily to the single wing style of play it is reported a variation of the T formation will be used for the first time.
A study conducted in England and Wales showed that bartenders had the highest rates of heart deaths, with barbers second and physicians third. Farmers were lowest.

School authorities said the boy had been matched with a 12-year-old classmate, Gilbert Azebedo, both boys were in the seventh grade, and in the 70-round class.

The bout was part of a boxing tournament sponsored at the school by the board of education under direction of the school's physical education supervisor.

Havre De Grace Meet Will Open April 12

Havre de Grace, Md., March 19—Charles J. McLennan, general manager and racing secretary of Havre de Grace said it will operate Havre de Grace on a new schedule, with a week of racing starting April 12 and ending Saturday, April 17. Then there will be "dark" days Monday and Tuesday, April 19-20, followed by four days of sport during the remainder of that week. On April 26 and 27, the plant will be idle. The final session will be run from April 28 through May 1.

The change was made to spread 14 days over a normal 18-day racing period, thus leaving 11 days for a summer meeting at the course, July 6-17 inclusive. Had the full 18 days been run in the spring, only 7 would remain for the summer affair and it was felt this span was not long enough to warrant opening.

Clearwater, Fla., March 19 (AP)—Curt Simmons, the Philadelphia Phillies' promising southpaw pitcher from Egypt, Pa., had a taste today of some major league slugging. Simmons was touched for eight runs and 10 hits in three and two-thirds innings yesterday against the Washington Senators. Simmons beat the New York Giants, 3-1, in the final game of the 1947 season, and a few days ago held the Detroit Tigers to one hit and no runs in three innings. The Phils rallied, however, yesterday and won 12-10.

Liverpool, Eng., March 19 (AP)—A phenomenal swing in betting today boosted the aged and previously ignored Prince Regent towards the role of possible favorite for tomorrow's renewal of the Grand National Steeplechase at Aintree.

As the vanguard of upwards of half a million racing fans poured into Liverpool for the 102nd running of the world's foremost steeplechase, speculation centered on whether this was at long last Prince Regent's year.

Philadelphia, March 19 (AP)—Top-seeded Stanley Hitz of Harrisburg, Pa., meets Don Farley, Philadelphia, unseeded, in the semi-finals of the 22nd annual national YMCA handball championships at the German-town YMCA today. Today's Talk

A FLAIR FOR ESSENTIALS

A friend of mine once wrote a story about a chap who sat in on conferences that often presented puzzling problems. He was an advertising man. After much discussion had been going on, this chap would suggest what he deemed the "Obvious" course to take—and usually it was the right one, the one that had been overlooked!

The simplest solution is always the best solution, for it is the one that usually contains the essential principles. We waste great quantities of energy by not having what I would term as a flair for essentials.

Benjamin Franklin early sought out these essentials as a guide toward moral improvement. He would write down what he considered these to be and then, at the close of each day, would have a self-examination to see how he had progressed. Henry D. Thoreau had the same idea, but he looked into Nature for his guide. Said he: "Such is beauty ever, neither here nor there, now nor then, neither in Rome nor in Athens, but wherever there is a soul to admire it."

Life is easily complicated. In fact it is very simple. A flair for the essentials would solve so much of the unhappiness and confusion that exist in so many minds. The late E. W. (Ed) Howe once wrote a little essay stating that success was easier than failure. And the late Elbert Hubbard once wrote: "Do the best that you can, and be kind." Both had a flair for the essentials that gave to them a workable philosophy of life.

Jesus had this flair. "Love thy neighbor as thyself," he said. And again, in "The Sermon on the Mount," what a program for a happy life! And in the Golden Rule, what a text for a peaceful world! No contrived phrase of man can equal it as a practical solution for the ills of mankind. All so-called "Charities" sink into oblivion beside it, as a practical, workable basis for permanent peace and good will in the world.

Those who live longest, and happiest, are those who live simplest. And usually the best solution to any problem is the simplest one, not the complicated one. Lincoln had this flair, and often won his cases in court through the telling of a simple story that drove his argument home.

Tomorrow Mr. Adams will talk on the subject: "Capacity."

HIGH-CHAIR DAYS
I like them at the table with the high chair in its place,
And I like to see the baby with a spinach-smearly face.
There's no music quite so soothing as the banging of a spoon,
For a baby at the table is a joy that ends too soon.

I like those pudgy fingers reaching out for mother's sleeve,
And the stains of crimson jelly which at supertime they leave.
And I like that rush for towels after every sad mishap,
When a cup of milk has landed in the middle of her lap.

Some feed them in the kitchen, where there's no one near to see,
But I want them at the table, for it's there they ought to be.

And the accidents that happen I am always glad to share,
For too soon the day is coming when the high chair won't be there.

Jesse D. Clapsaddle presided and Fred P. Haehnen acted as secretary.

\$5,000 CHICKS ARE EXPECTED

Easton, Md., March 19 (AP)—Some \$5,000 baby chicks will peck their way out of the shells over the week-end.

For the nation's billion-dollar-a-year broiler industry it is as exciting as the opening game of a World's Series.

That \$5,000 goes to the breeder whose chicks make the best broilers 13 weeks hence. His winning bird gets the "chicken of tomorrow" citation—posthumously.

Forty breeders in 27 states sent 525 eggs apiece to Allen Bradley's hatchery here to start the contest. Four alternates also sent eggs, just in case some of the 40 entries don't hatch out the 400 chicks required to get into the next round of competition.

The settings came three weeks ago by air, by train, by motor truck and private car—one all the way from Puyallup, Washington.

Sunday is D-Day for the big breakthrough on the incubator line. On Monday, Bradley and his helpers will put an identification band on each of the best 400 chicks from each of the 40 settings.

Off they'll go to the University of Delaware poultry station at nearby Georgetown. For the next 13 weeks they'll get a formula cooked up by the National Feed Manufacturers' Association.

The payoff comes on June 24 after they've been killed, dressed and frozen at a Pocomoke City, Md., processing plant.

SGT. DUHRKOFF IS LIONS' SPEAKER

Robert L. Crouse, president, presided at the semi-monthly meeting of the Littlestown Lions club Thursday evening in Bankert's restaurant, South Queen street. The club voted two donations, \$5 to the Crippled Children's society and \$10 to the Red Cross. John Bloom, chairman of the Lions Amateur Show committee, reported that the show was very successful.

The program was in charge of the safety committee consisting of John W. McGore and John H. Riley. The subject of the program was "Safety" and the speaker was Sgt. W. K. Duhrkoff of the Gettysburg substation of the Pennsylvania State Police. He said: "Most accidents occur between 3 p. m. and 9 p. m. During the past year there was a slight reduction in accidents. Speed is the cause of most accidents. During 1947, 707 pedestrians were killed in Pennsylvania."

Four visitors were present from the Westminster Lions club. They were Guy Brewer, Oscar Wine, Milton Becroft and Kenneth Perry. The next meeting will be Ladies.

Husband Convicted Of Manslaughter

Elizabeth, N. J., March 19 (AP)—Philip A. Schreil, mild-mannered 60-year-old photo-engraver who admitted strangling his wife in a fit of fury prompted by her "shrewishness," was convicted of manslaughter last night. The state has asked a verdict of first degree murder.

Schreil, described in court by his son as "one of my mother's slaves," faces a minimum penalty of 10 years in prison. He will be sentenced March 29.

The jury of seven men and five women—all of them married—took seven-and-a-half hours to reach its verdict just several minutes before midnight.

State Senator John E. Toolan, Schreil's counsel, told the jury the slaying was "done in the heat of passion and with provocation, precipitated by a wild burst of emotion."

Refuse Parole To Wealthy Prisoner

Washington, March 19 (AP)—The Federal Parole board refused a parole Wednesday for Serge M. Rubinstein, international financier who has luxurious homes at Red Bank, N. J., and New York City.

Rubinstein, now serving time for draft act evasion in World War II, was convicted in New York City last April of making false statements to his draft board. He was fined \$50,000 and sentenced to 2½ years in Lewisburg, Pa., Federal prison.

He became eligible for parole last month, but the board said yesterday it had adopted the recommendation of its examiner, who reported against the parole.

Night. The meeting will be held on April 1 in the social hall of the Redeemer's Reformed church. The greeter committee consisting of Wilbur A. Bankert and H. Dewey Streig will be in charge.

D. D. Basehoar, local Ford tractor dealer, East King street, is having a large, attractive neon sign installed in front of his garage. The installation is being made by William Keefer, local dealer in neon signs.

NLRB ABANDONS FORMER THEORY

Washington, March 19 (AP)—The National Labor Relations Board has handed down two decisions which abandoned the previously-held NLRB theory that an independent union is more likely to be company-dominated than one affiliated with the CIO or AFL.

The decisions involved the Carpenter Steel Co., of Reading, Pa., and the Hershey Metal Products Co., of Ansonia and Derby, Conn.

The change in NLRB policy came as a result of the Taft-Hartley labor act. From now on, the board said, there will be no distinction drawn between independent and affiliated unions in cases before the NLRB.

Acting on charges filed by the CIO-Steelworkers union, the NLRB found in the Carpenter case that the company's "unfair labor practices exceeded the bounds of interference and support and constituted domination of the employees' representation committee as well." The board ordered disestablishment of the committee.

In the Hershey case, the CIO-Mine mill and Smelter Workers charged company domination against the employees' committee and Employees' Representatives Association Independent union, Local No. 1.

The board ordered the company from bargaining with the unions until the NLRB issues a certificate authorizing bargaining rights.

Woman Is Killed In Freak Accident

Cumberland, Md., March 19 (AP)—Police said a bullet accidentally fired from a pistol in an upstairs room went through the floor and killed a woman sitting in a chair downstairs in the living room.

Mrs. Mary L. Andrews 45, wife of James E. Andrews, an orchestra leader, was the victim of the freak accident, said Detective Thomas J. See.

Her father-in-law, 73-year old James W. Andrews, told police he was showing a .38 caliber pistol to his son last night when it discharged.

Andrews and his son were in a room on the second floor while their wives waited in the living room. Andrews planned to give the pistol, which he had had for 30 years, to his son.

The elder Andrews was released after questioning.

"Mother Moore" Is Seriously Ill

Philadelphia, March 19 (AP)—Mrs. Caroline A. Moore—Mother Moore to thousands of World War I and II veterans—is seriously ill in Philadelphia General hospital today.

Mrs. Moore, 78, entered the hospital last Wednesday but hospital officials didn't disclose the nature of her illness.

A call for blood donors brought many for beating 15-year-old Peggy Ann Markland in her Upper Merion home.

WORLD WILL WATCH FINNS' KREMLIN TALKS

By SIGRID ARNE

(AP Foreign Affairs Analyst)

Early next week a committee of Finns will sit down in the Kremlin to hear what kind of pact Stalin wants them to write with the Soviets.

He has already notified the little northern republic that he wants more than a pledge of friendship. He wants to talk about a military pact.

The idea of a military pact kicked up immediate protest in Finland. Only the Communist-run popular front approved the full military agreement. The five other political parties in Parliament objected.

Great Interest Here

Whether the Finns can stave off any agreement which binds them closely to Russia's future is a matter of great anxiety in Washington and in other western capitals.

Pacts with the Kremlin often in the past three years have been merely a prelude to Communist overthrow of the home government. Czechoslovakia was the last victim of such turmoil.

Finland experts in Washington think the little nation will be more difficult than some of its southern neighbors for Stalin to force into any pact it doesn't want. They point first to the traditionally tough courage of the Finnish people.

Practical Thoughts

And they talk of the more practical matter of what Stalin could do to Finland in retaliation for a refusal.

They say Stalin could deny the Finns the Russian wheat which they must have, but to that one Washington official said: "No doubt the western world will be able to dig up whatever wheat the Finns need if it's necessary."

Or the Red armies could invade Finland again, as they did in 1939. But that would be war, and there is general agreement that the Soviets do not want war now.

Further the Russians would have to remember that after their 1939 attack on Finland they were expelled from the League of Nations. History could repeat itself in similar action by the United Nations, and the Russians appear to find their U.N. membership to their advantage.

Finns Reds Are Few

But what about action at home from Finnish Communists? Could they form the type of "action committees" which helped to terrorize Czech Democrats and overthrow the Czech government? They have already started to organize factory meetings to support a Russian pact. They have already been rebuked by leaders of other parties for trying to "provoke unrest."

However, on the bright side for internal peace in Finland is the small size of Finland's Communist party: Only something between 28,000 and 45,000 in a population of 3,775,000.

Finland's municipal elections in December showed a strong trend away from the extreme left viewpoint.

Philadelphia To Fight Fare Boost

Philadelphia, March 19 (AP)—The city prepared today to carry to the U. S. District court its fight to block a Philadelphia transportation company fare boost scheduled to become effective Sunday.

Judge J. Cullen Ganey of the District court will sit this afternoon to receive a municipal petition for an injunction and a companion request for creation of a statutory court.

Granting of the restraining order will pave the way for a special court to test constitutionality of the state statute.

The State Supreme court refused yesterday to order a suspension of the new tariffs until the city could argue the case on behalf of its 3,000,000 riders.

Federal relief is being sought on the grounds that present PTC fares are about to be raised in violation of the "due process of law" provision of the U. S. constitution.

COAL STOPPAGE SLOWS INDUSTRY

Pittsburgh, March 19 (AP)—The five-day-old soft coal walkout today made deep inroads on steel and transportation, idling at least 12,000 to 15,000 workers.

If the 350,000 United Mine Workers, who demand \$100 monthly pensions stay out over the week-end, many more thousands will be forced into idleness.

Biggest since layoff hit 10,000 employees of the coal-carrying Chesapeake & Ohio railroad, R. J. Bowman, president of the line, said

RESIGNATIONS OF TWO ASKED

Philadelphia, March 19 (AP)—State Senator H. Jerome Jaspas, has called upon two Public Utility commissioners to resign because "they have definitely ignored the interests of the taxpayers."

Jaspas yesterday urged the resignations of Harold A. Scragg, of Scranton, and John Siggins, Jr., of Warren.

The Philadelphia senator also re-

newed his campaign for the establishment of a fair-rate board to replace the utility commission.

Jaspas said he would recommend the reappointment of only one member of the present PUC, John B. Conley, to such a board.

Commenting on Siggins and Scragg, Jaspas said: "For our people to leave their fate in the hands of men who time and again and, I dare say, invariably, decide all rate cases in favor of the utilities as against the consumer, is tragic and certainly is a sad commentary on the history of public utility regulation in Pennsylvania."

Siggins, reached at his Camp Hill home, said "I have no comment to make at this time." Scragg was not immediately available for comment.

Admits Thefts But Denies Using Tools

Philadelphia, March 19 (AP)—Ralph Seddon, 38, pleaded guilty to charges that he robbed coin-operated washing machines in 10 West Philadelphia apartment houses—but the burglar tools police introduced in evidence were another matter.

"I didn't use them tools on any of the jobs," Seddon told Judge Louis E. Levinthal in quarter sessions court yesterday. "I used a key on every one of the slot machines."

"Then what were you carrying the tools for?" asked Assistant District Attorney Raymond A. Speiser.

"I just stole them out of that place where I got arrested," Seddon replied.

Judge Levinthal stopped the ensuing laughter in the courtroom with a rap of his gavel and sentenced Seddon to serve 18 months to five years in Eastern State penitentiary.

SCIENTIST IS DETAINED AT ELLIS ISLAND

Washington, March 19 (AP)—Attorney General Tom Clark today authorized the release of Mme. Irene Joliot-Curie, the French scientist, who had been detained by immigration officials at Ellis Island.

The order for Mme. Joliot-Curie's release followed earlier indications from the Justice department that she would be detained until it could be determined whether her entry would be "prejudicial to the best interests of the United States."

She was released on her own recognizance (without bond) for 15 days. This is the exact period of her proposed visit to the United States which was authorized in a State department 15-day visitor's visa issued at Paris.

New York, March 19 (AP)—Mme.

Irene Joliot-Curie, Nobel prize-winning nuclear physicist whose parents discovered radium, was held by immigration authorities at Ellis Island today.

The 50-year-old French scientist was taken into custody yesterday as she alighted from an Air France plane at LaGuardia Field. Later, a Department of Justice spokesman in Washington said that Mme. Joliot-Curie was being detained under a "temporary exclusion" order.

The spokesman, Leo Cadison, did not elaborate on the statement. Immigration officials here declined comment.

Her lecture tour was arranged by the joint Anti-Fascist Refugee committee. The committee was described as subversive last December by Attorney General Tom Clark.

Mme. Joliot-Curie's detention was termed by the chairman of the committee and a member of the welcoming group which was waiting for her as "an outrageous action" and an "affront to the American people."

In a formal statement issued several hours later, the chairman, Dr. Edward Barsky, said "Mrs. Curie (sic) came to the United States to speak at a dinner in her honor to be given by the joint Anti-Fascist Refugee committee on March 31. Her visa was approved by American officials in France, but upon her arrival she was whisked off by government agents and denied access to counsel and friends, with no charge against her made known."

Barsky Was Convicted

Barsky said Mme. Joliot-Curie had come to this country to "acquaint the American people with the immediate needs of the Spanish Republicans in exile."

A New York surgeon, Dr. Barsky was indicted last July for refusing to yield records of the refugee organization for inspection by the House Un-American Activities committee. Convicted of contempt of Congress, along with other members, he appealed a six-month jail term and \$500 fine. The conviction was upheld yesterday by the U. S. court of appeals in Washington.

The organization was accused during the trial of being "honeycombed" with Communists.

French Concerned

Paris, March 19 (AP)—A French defense official voiced alarm today over the Communist sympathies of Atom Expert Frederic Joliot-Curie, whose wife, herself a leading physicist, is held by U. S. immigration authorities.

Paul Anxionnaz, chairman of the French Assembly's national defense committee, said he is "extremely uneasy over the fact that our atomic research is headed by M. Joliot-Curie, who has open Communist sympathies."

A fight erupted in the Council of the Republic, France's Upper House, last night after a follower of Gen. Charles DeGaulle demanded that the commissariat for atomic research be purged of Communists.

WAR BUILDING UP IN CENTRAL AMERICAN FUSS

By REGINALD L. WOOD

San Jose, Costa Rica, March 19 (AP)—Gen. Rene Picado Michalski, Security (War) minister, says Costa Rica's political revolt is building into a Central American war.

Picado answered "yes" when newsmen asked him last night if the week-old rebellion by forces under

against her made known."

Barsky said Mme. Joliot-Curie had come to this country to "acquaint the American people with the immediate needs of the Spanish Republicans in exile."

Jose Figueres is going to involve all of Central America.

Four other countries already are said to be involved in Costa Rica's political quarrel.

Guatemala has been accused by Costa Rica of sending arms across the border to insurgent forces. (Guatemala's foreign ministry instructed its San Jose envoy last night to require Costa Rica to prove the charge, or withdraw it.)

Get Outside Help

Nicaragua has sent planes and officers to aid the government, and government forces have charged that some Nicaraguans are helping Figueres.

The government has sent Dr. Luis Anderson to Honduras to appeal for arms and economic aid.

At least three pilots from the Dominican Republic have arrived from Ciudad Trujillo to fly two LASCA planes commandeered from a Pan

American subsidiary Wednesday by the government.

Costa Rica's political caldron, simmering since the February 8 elections, boiled over last Saturday when President Teodoro Picado Michalski proclaimed martial law.

Dates From March 1

The dispute began in Congressional action March 1, when the Presidential election of Otilio Ulate Blanco was annulled. Congress upheld fraud charges brought by his opponent, Rafael Calderon Guardia, the government candidate. Violent partisanship developed and revolt broke out Saturday.

Ulate charges that Communists are backing the government and are trying to use current political strife as "a bridgehead for control of Latin America." Figueres, champion of Ulate, claims his men have captured a number of known Communists.

Proposal For Delayed Draft May Be GOP Answer To Truman Demands

WOULD REGISTER BUT NOT CALL NATION'S YOUTH

By JACK BELL

Washington, March 19 (AP)—Senate Republican leaders seemed near agreement today on a plan to register—but delay drafting—the nation's young men for military service.

The wait-and-see proposal under study by Senators Vandenberg (Mich.) and Taft (Ohio) would call for speedy passage of laws to revive selective service in the face of stepped up Communist pressure in Europe. Selectees would be chosen and put on notice.

But Congress would not push the button for inductions unless or until: (1) Voluntary enlistments continued to lag; (2) The world situation grew so grave as to call for partial or full mobilization of a citizen army.

Would Spur Enlistments

The prime object of such a law would be to spur immediate enlistments of those subject to call, thus filling vacant ranks in line with President Truman's plea for strengthened armed forces.

This Republican answer to Mr. Truman's request for universal military training and a limited revival of Selective Service is known to have the enthusiastic backing of Vandenberg. He is the Senate's presiding officer and heads its foreign relations committee.

Taft told a reporter he is inclined to support the plan but has not made up his mind finally.

Meanwhile, an informal poll of the House Armed Services committee showed today that group probably would approve an outright draft revival at once. Fifteen out of 33 members said they favor such a step and only four listed themselves as definitely opposed.

New Wallace

However, House Republican leaders have made clear that full hearings will be held on the subject before any action is taken.

The standby plan developed at a time when Mr. Truman's proposals and policies were under fresh attack from his fired cabinet member, Henry A. Wallace.

In a radio address last night, Wal-

President Truman addresses a joint session of Congress assembled in the House chamber. Seated behind him are Senate President Pro Tem Arthur H. Vandenberg (R-Mich.) (left) and House Speaker Joseph W. Martin, Jr. (R-Mass.) (right). The President asked for power to draft men to build armed strength against the ruthless aggression of Soviet communism.—(AP Wirephoto)

Egg Production In Pa. Up Last Month

Harrisburg, March 19 (AP)—Egg production in Pennsylvania during February was three million above January, the State Agriculture department reported today.

The department said a total of 264 million eggs were produced even though there were three per cent less layers in the state than in January.

A sharp drop in egg prices during the month, left farmers in a worse financial condition than January the department said. As of February 15 farmers were receiving an

average of 53.3 cents a dozen for eggs, a drop of 8 cents from January. The department said feed prices showed a slight decline with laying mash dropping 10 cents to \$5.60 a hundred pounds and scratch feed, dropping 30 cents to \$5.40.

Miss M. Agnes Weaver is spending some time at the home of her mother, Mrs. James R. Weaver, after completing her studies in nursing at Mercy Hospital and Mt. St. Agnes college, Baltimore. Miss Weaver, a graduate of the 1943 class of the Delone Catholic high school, McSherrystown, entered training early in 1945 as a cadet nurse.

E. H. "Johnny" Overbaugh has begun his duties as proprietor of his newly opened garage in the rear of Rohrbaugh's grocery, Carlisle street.

He complained that St. Patrick's Day speeches—Mr. Truman's included—were "hysteria breeding."

ENOUGH RURAL DOCTORS IN PA.

Harrisburg, March 19 (AP)—Dr. Orlo G. McCoy, of Canton, told the Pennsylvania Medical society last night that there is "no pressing need" in Pennsylvania rural areas for medical service.

Only 15 small scattered communities in the Commonwealth are without a resident physician, Dr. McCoy declared at a secretaries and editors conference, adding that the state has more than its share of doctors.

"Our biggest project now is to get country boys to take up medicine that they might return to their com-

munities and practice," he said, adding: "We have established a scholarship fund for this program and are going into it on a large scale." Dr. McCoy is a member of the society's committee on rural medicine.

In another speech last night, John S. James, editor of the Johnstown Democrat, told the physicians that "you must re-evaluate your horse and buggy notions about what is ethical and what is unethical in publicity." James urged doctors to establish a more extensive program of public education. "Establish it to the degree where you are successful in acquainting the public with the limitations of your physical capacity," he said, emphasizing: "You will then experience less trouble and therefore meet less criticism from the public about availability."

Bachelor's House Goes Underground

Pottsville, Pa., March 19 (AP)—Seventy-year-old Jack Egan is faced with a housing problem today—what to do with a house 25 feet underground.

Egan, a bachelor, returned home yesterday after visiting friends overnight—only to find that his one-room house and 75 feet of railroad track a half mile away had been swallowed up in cave-ins on mine-honeycombed Broad mountain, 18

miles west of Pottsville.

Where Egan's house had been, he found only a gaping hole. The thaw-softened earth had completely covered the house.

Another cave-in swept away 75 feet of Reading railroad track a half mile away. Trainman Robert R. Dando reported a train hauling 12 empty freight cars passed over the section of track shortly before the cave-in.

Fossil remains have been found in Crete of a tiny elephant which stood only three feet high.

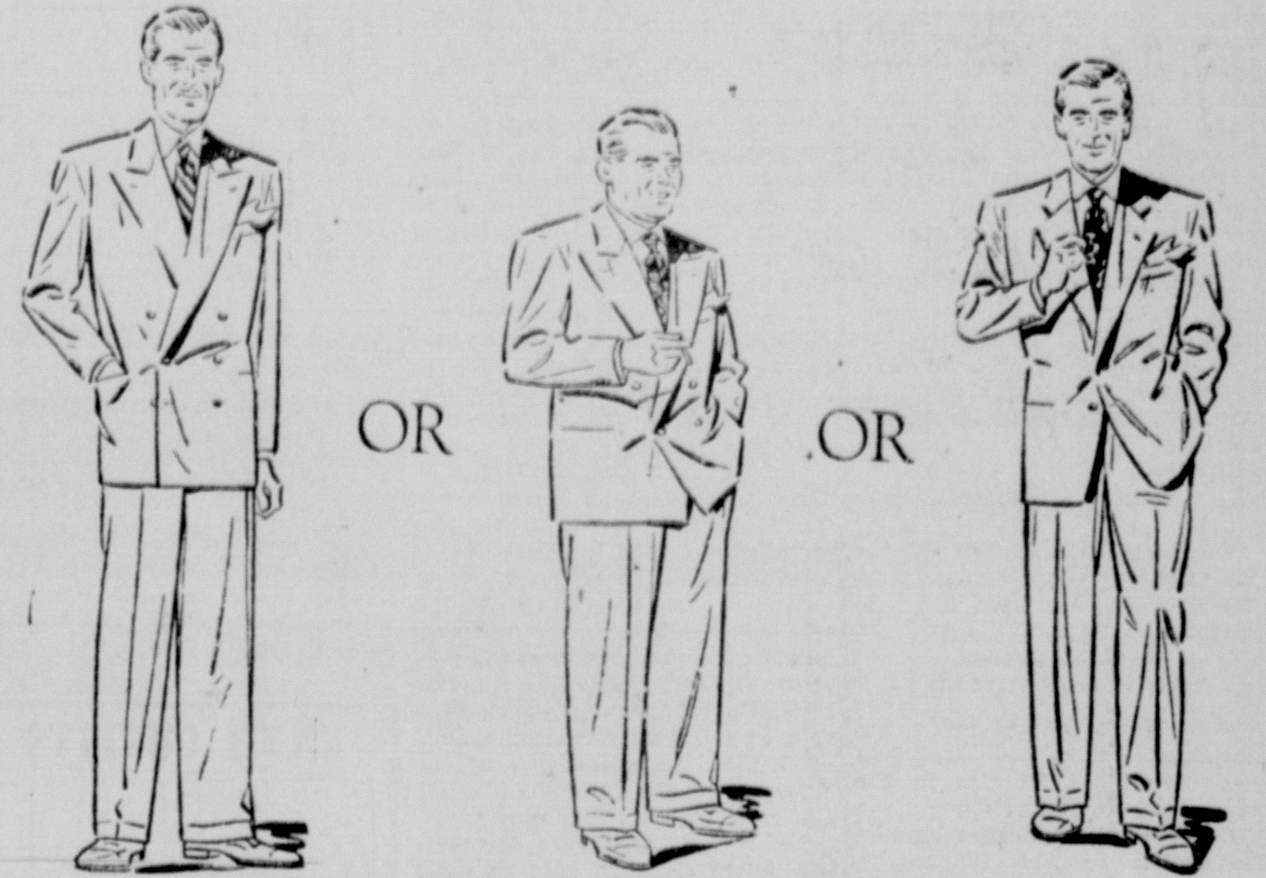

EX-ADMAN DIES

Philadelphia, March 19 (AP)—Robert Holmes Durbin, 81, former advertising executive for Strawbridge and Clothier's department store, died Tuesday. A former president of the Poor Richard Club, he was a native of Brownsville, Pa., and worked in Pittsburgh before entering the advertising business in Philadelphia.

An English statute of 1236 has been interpreted to fix Feb. 28, in the years when February has no extra day, as the proper date to celebrate birthdays of those born Feb. 29.

PA. SPORTSMEN HUGE SPENDERS REPORT SHOWS

Harrisburg, March 19 (AP)—Pennsylvania sportsmen spend more than \$200,000,000 a year for the privilege of hunting and fishing in the commonwealth.

The Pennsylvania Game commission made public this figure today in a report issued in conjunction with National Wildlife Week, March 21-27.

"The average hunter or angler spends an average of \$150 annually on his favorite sport, although he wouldn't admit it to his wife," the commission said, adding: "Multiply 1,350,000 hunters and anglers by \$150 and you find that Mr. Sportsman and his friends spend considerably more than \$200,000,000 a year to hunt and fish in Pennsylvania."

The commission estimated that 850,000 licensed hunters and around 500,000 fishermen at \$2 per license spend \$2,000,000 every year before they even start to hunt and fish.

Has Huge Stake

"For this reason, the average citizen's stake in the conservation program is astounding. That money benefits nearly everyone in the state directly or indirectly," the commission pointed out.

Meanwhile, the State Department of Forests and Waters issued a special appeal to sportsmen's organizations throughout the state to help prevent forest fires.

"Fire has done more to bring out losses in game and those things which produce game, faster than any other single thing," declared M. P. Draemel, department secretary.

Draemel urged sportsmen to take "particular care" to guard against wood fires although the present danger, in the midst of spring thaws is slight.

"We approach a season of the year when the woods become most subject to damage from fire," he asserted.

TWO FLIERS KILLED

Tokyo, March 19 (AP)—The Army announced today two American fliers were killed Monday in the crash of a P-61 night fighter plane in the hills of northern Okinawa. The victims were Lt. William H. Becker, Philadelphia, pilot, and Lt. Kenneth P. Gaines, Glendale, Calif., an observer.

SUSPEND LICENSE

Harrisburg, March 19 (AP)—The state Liquor Control Board suspended license of Margaret A. James, The James Inn, Coatesville, R. D. 2, for 15 days, effective April 8. The board cited excess sales for consumption off the premises as the reason for the suspension.

Medical Student Is Fatally Shot

Bowling Green, O., March 19 (AP)—An 18-year-old Bowling Green State university premedical student died of a bullet wound on Thursday, apparently the victim of a supposedly empty pistol fired at least 140 feet away.

Wood County Prosecutor Floyd A. Collier and Police Chief Guy Spiller said the dead youth was Charles Wenzel, Centerburg, Ohio, freshman, who was in his own first-floor dormitory room when a bullet shattered a window, striking him in the head.

The two officers said Jim Singler, 21-year-old former seminary novice from Sandusky, Ohio, was being held without charge pending a coroner's inquest later.

Collier and Spiller said Singler admitted firing a Belgian 9 millimeter pistol through his open second-story dormitory window but maintained he thought the weapon was unloaded.

CARDINAL IN FAVOR OF UMT

New York, March 19 (AP)—Francis Cardinal Spellman says he personally favors Universal Military Training.

"America is no safer from mastery by Communism than was any European country," he told the annual dinner of the Friendly Sons of St. Patrick Wednesday in endorsing universal training "as a private American citizen."

The cardinal, Roman Catholic archbishop of New York, spoke preceding President Truman, who restated his plea to Congress for universal training and a temporary peacetime draft.

"I hate war," the cardinal said. "And it is because I do hate war that I must put my trust in men who know better than I the dangers that beset America."

"And if these men chosen by the vote and confidence of the American people believe preparedness will prevent war, then I, who love America better than I love my life, cast my vote, as a private American citizen, upon the recommendation of the President of the United States for Universal Military Training."

The cardinal, discussing the coming Italian elections, said he could not believe that "the Italian people, whom I learned to know and to love as I spent with them 13 of the most precious years of my life, will yield their faith and America's friendship to Soviet Russia's Communist pressure and propaganda."

Lancaster, Pa., March 19 (AP)—John Keener, 77, Manheim, R. 3, was killed by an automobile last night while walking along a road near his home.

Washington, March 19 (AP)—President Truman may seek a court order to block the threatened strike at an atomic bomb laboratory at Oak Ridge, Tenn.

Boston, March 19 (AP)—David E. Lillenthal said Thursday that using "star chamber proceedings and Gestapo methods" on scientists could "stop this country's atomic energy progress dead in its tracks."

The chairman of the atomic energy commission said the Germans failed to produce an atomic bomb because of such actions. And he said that "may contain a lesson and a warning to Americans."

Moscow, March 19 (AP)—A new medical research expedition into the Arctic was reported today in Izvestia, Soviet government newspaper.

Athens, March 19 (AP)—The Greek government took its first step Thursday toward civilian mobilization with a measure giving cabinet ministers full power to take emergency action.

RIDDLED BODY OF MAN FOUND IN SUSQUEHANNA

Lancaster, Pa., March 19 (P)—A bullet-riddled body found in the Susquehanna river has been identified as that of a 36-year-old used car salesman who disappeared with \$1,525 last December 9, state police Sgt. David Green said today.

Green said identification of Russell Balliet, widower and father of four, was made last night by the man's brother-in-law, C. V. Waltman, of near Berwick, Pa., and by James McElroth, Berwick automobile dealer and Balliet's employer.

The state policeman said Alex

Agoston, Jr., 40, of Berwick, signed a statement that he shot Balliet during an argument over an automobile sale and pushed his body into the river at Millville—more than 140 miles from where it was found.

Held for Murder
Agoston is being held at the Columbia county jail on a charge of murder, Green said. Agoston had not been brought to trial, Green said, because nobody had been found previously to substantiate his statement.

Three rivermen working on a sand barge discovered the body yesterday near the Holtwood dam and notified state police who brought it to St. Joseph's hospital, Lancaster, for an autopsy.

Green said Balliet drew the \$1,525 from a bank the day he disappeared to purchase a car.

McElroth on December 22 offered a \$100 reward for recovery of Bal-

Increase In Water Rates Is Allowed

Harrisburg, March 19 (P)—The Philadelphia Water company, Bryn Mawr, was granted permission to increase its rates effective March 29. The Public Utility commission, in approving the increase yesterday, said the company based its need for the raise on "growing costs" of fuel, labor and material.

The company provides service to more than 100,000 consumers in Montgomery, Chester, Bucks and Delaware counties. The rate increase, it estimated, will amount \$349,340 in additional revenues.

"HOMEMAKER'S MEETING" HELD BY LOCAL CLUB

The program for the March meeting of the Woman's Community club of Littlestown and vicinity held Wednesday evening in the POS of A Hall was a "Homemaker's Meeting."

The Rev. Paul Levi Pouk, pastor of St. Paul's Lutheran church, Hanover, and a native of Adams county, was the guest speaker.

He was introduced by Mrs. Frederick R. Seibel, chairman of the program committee for the evening.

Mrs. Seibel explained that the American Home committee communications from the State Federation have requested that family relations in the home be stressed and the speaker was selected because of his special interest and his experiences with that subject.

The speaker had on display a variety of books and pamphlets relative to the subject, including one written by himself entitled, "They Twain Shall Be One" and he read excerpts from some of them.

Says Homes Have Changed
The Rev. Mr. Pouk traced the beginnings of friendship, the romantic and experimental courtship stage prior to marriage and the real commencement of home life.

He said, "the things that went on in home life many years ago when the family lived together as a unit and enjoyed such things as quilting parties and corn husking contests and spelling bees, as well as having the needs of the family with regards to food and clothing taken care of right at home, are no more. Now, it is difficult to get the members of the family together and home becomes more or less a boarding house instead of the center of the lives and loves of the family unit."

The speaker using the word "Home" as an acronym showed how each letter of the word stood for a complete word: "H"—hope; "O"—others; "M"—mother and memories; "E"—energy or effort. He continued by listing a number of present day problems with regard to marriage, housing situation, finances in the family, pleasures, religion and co-operation. There was an open discussion on a questionnaire, copies of which were presented to each member.

The Rev. Mr. Pouk emphasized two thoughts: "Let us be kind in our judgments of others" and "the older we get the more we learn that we can do without a lot of things that we thought we just had to have."

Business Session
The business session was in charge of the president, Mrs. Charles W. Weikert, and opened with the singing of "America the Beautiful" and the recitation of the club collect by the group, Mrs. Richard A. Little served as piano accompanist and Mrs. Stanley Horner was song leader.

The secretary's report was given by Mrs. Samuel Renner and the treasurer's report by Mrs. Wilbur A. Bankert.

Mrs. Harry T. Harner, chairman of the church committee, read a letter of thanks from one of the members who was ill, Mrs. Holman Sell, chairman of the standing hostess committee, reported that permission had been obtained from the P.O.S. of A. to have shelves built in a portion of the kitchen that is unused and also that the table in the kitchen needed to be repaired. It was decided to have the necessary changes made and to purchase sufficient supplies so that 90 people can be served at one time.

A one burner oil stove was obtained for the convenience of those who serve on hostess committees and the members were invited to inspect the improvements in the kitchen.

Mrs. Clayton Evans, president of the Adams County Federation of Women's clubs, announced that formative plans are progressing for the county federation meeting to be held Thursday, April 8, in the social rooms of Redeemer's Reformed church at 8 o'clock.

Mrs. George King Raudenbush, chairman of the fine arts department of the state federation, and Mrs. Melvin Stewart, vice president of the Southern central district, will be among the guest speakers.

Mrs. Emma H. Mehrling, chairman of the program committee for the occasion is arranging the program. The local club will be the hostess group and the following who are members of the county executive committee from the Littlestown club will serve as hostesses:

Mrs. Clayton Evans, Mrs. C. W. Weikert, Mrs. Emma Mehrling, Mrs. Leon Gage, Mrs. J. R. Riden, Mrs. John LeGore, Mrs. Marvin Breighner, Mrs. Chester S. Byers, Mrs. Harry T. Harner and Mrs. Paul Altoff.

flowers or house plants available for use as decorations should contact one of the hostess committee. Contributions were received to help defray the expenses of the meeting.

The questionnaire distributed to the members at the February meeting with regard to the proposed project of the club favored a community center. The executive board will continue to investigate the possibilities and will submit plans at a future meeting. It was decided to issue membership cards to members upon payment of dues, as well as to enforce the by-laws with regard to members who are delinquent in their dues.

Mrs. Albert Lawyer, chairman of the committee to make inquiries for the proposed trip to be taken by the members of the club, reported on bus rates, available dates, and suggested places to go. It was decided that the trip will be taken in May and details as to place will be handled by the committee.

Announce State Meeting
Mrs. Weikert announced that the annual convention of the Pennsylvania State Federation of Women's Clubs will be held in Harrisburg May 3, 4, 5. Any member wishing to attend is requested to contact Mrs. Clayton Evans, Mrs. Joseph R. Riden, Mrs. Emma H. Mehrling, Mrs. Leon H. Gage, or the president, for transportation, all of whom expect to attend some of the sessions.

A letter was read from Mrs. Marvin Breighner, teacher of the Home Economics department in the local high school, thanking the members for the use of the trays during the time when the department conducted a cafeteria at the school.

A contribution of \$10 was voted to the Red Cross Drive and appeal for the penny art fund of the Pennsylvania Federation was tabled.

The president announced that the
